

December 2018

Dear Friends,

As 2018 draws to a close and we all start the holiday season, I am happy to bring to you this last issue of “India Economic News” for this year.

We have been trying to expand our engagement with the Dutch Caribbean. The Hon’ble Prime Minister Eugene Rhuggenaath of Curaçao, a person of Indian origin, recently visited the Netherlands in November. I met with the Hon’ble Prime Minister and we also utilized his visit to introduce leading Indian companies in the Netherlands - HCL, TCS and Sun Pharma to him. The companies briefed him about their global operations. Hon’ble Prime Minister in turn informed them about opportunities for investment in Curacao and invited them to visit Curacao to explore business opportunities.

We can look back on the year 2018 as a highly fulfilling year in terms of bilateral economic interactions. To recap, the highlights of the year were:

- A Seminar on Prospects for Indo-Dutch Cooperation in the area of Science & Technology on March 26 at the High Tech Campus in Eindhoven. The English version of the AWTI Advisory Letter on Dutch-Indian Collaboration in Science, Technology and Innovation was released at the event.
- The historical visit of Prime Minister Mark Rutte to India on May 24 this year, accompanied by four Cabinet Ministers as well as the Mayor of The Hague and a delegation of more than 130 companies, the largest ever trade delegations to visit India. Briefing session prior to the visit and a de-briefing session post the visit was organized for the Trade Delegation by the Embassy.
- Visit to the Netherlands by the CEO of the National Investment and Infrastructure Fund (NIIF) for briefing Dutch companies, including pension funds, on the opportunities for investment in India.
- Visit of Indian Minister for AYUSH (Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homoeopathy), Shripad Yesso Naik to the Netherlands from September 1-4, 2018, to attend the Fourth International Ayurveda Congress (IAvC) and a special Seminar organized by the Indian Embassy on “India-

Netherlands collaboration in Healthcare, including Ayurveda” which was addressed by the Dutch Minister for Medical Care and Sport Bruno Bruins.

- Visit to the Netherlands by Minister for Food Processing Industries, Mrs. Harsimrat Kaur Badal from September 5-6, 2018, and meeting with the Deputy Prime Minister and Minister for Agriculture Carola Schouten.
- A ‘Smart Cities Mission’ led by the Director for Smart Cities Mission in India and CEOs of Smart Cities of Agra, Karnal and Dharamshala from September 10-13, 2018.
- Visit by Mr. M.K. Das, Principal Secretary, Industries and Mines Department, Government of Gujarat to promote the Vibrant Gujarat Summit.
- Annual NIBM of the Netherlands India Chamber of Commerce and Trade (NICCT) attended by myself and Mayor of Rotterdam.
- International Yoga Day on Sunday, June 17, at the prestigious Museumplein, Amsterdam was inaugurated by Minister of Infrastructure and Water Management, Ms. Cora van Nieuwenhuizen and spiritual guru His Holiness Sri Sri Ravi Shankar.

I look forward to a further deepening of the bilateral relationship in 2019.

Plans on the anvil currently are an interaction with Dutch companies in the Food and Agri Sector in December; Dutch participation in the Vibrant Gujarat Summit which will be held in India from 18-20 January; Netherlands being the Partner Country for the 25th Department of Science & Technology (DST) – Confederation of Indian Industry (CII) Technology Summit and; India’s participation in the Vakantiebeurs in Utrecht in January.

The Republic Day of India will also be celebrated at 1000 hours at India House in Wassenaar with a flag hoisting event and Open House.

With best wishes for the coming holiday season and a Happy New Year 2019,

Venu Rajamony
Ambassador of India to the Netherlands

The Global Housing Technology Challenge (India)

The Minister for Housing and Urban Affairs, Mr. Hardeep Singh Puri announced the intent to launch a Global Housing Technology Challenge, at an event at the World Urban Forum in Kuala Lumpur on Sunday, the 11th of February 2018. Mr. Puri spoke about the Pradhan Mantri Awas Yojana which was launched in June 2015, and its goal of providing affordable and quality houses to over 12 million families by 2022.

He acknowledged that to meet this ambitious goal, one of the key strategies would be to employ innovative technologies that could allow for speedier and cost-effective construction of homes while ensuring safety, sustainability, livability and scalability. He stressed on the importance of partnerships and invited experts and technologies from around the world to participate in the challenge process. The challenge is being detailed out currently and is expected to launch shortly. Further information can be seen at: <https://smartnet.niua.org/content/11dc220f-6421-4184-94a1-17604e0af7c1>
